Hillsboro Presbyterian Church blood drive

- **We collected a total of 29 units of blood on our goal of 19!**

The best part is your blood is already on the way to hospitals locally and across the country. Over 29 patients may be receiving the gift of life in the next few days and weeks. If it weren't for sponsors and volunteers like you, patients like Olivia would not have the treatments they need to fight cancers and other illnesses, I've attached her story below!

Thank you on behalf of all the patients that you have helped and all those you are about to help.

Local Recipient Story:

Olivia is a 5 year old from West Linn who was diagnosed with Leukemia in August 2021. During the course of her treatment at Doernbecher Children's Hospital, she used 21 units of blood. Her mom shared "Every blood transfusion gave Olivia another chance at life, and continued success at battling her cancer and being a kid again". We are excited to share that her treatments worked, she is in remission and being a kid again. Fall 2022.
